

Water Usage The amount of water used by residents doubles during quarters with landscape irrigation. The District encourages sensible landscaping that utilizes water conservation techniques.

The new meter reading system of the District provides a usage reading every 12 hours from each property. Some of the data from the meter readings indicate some irrigation systems have leaks that either occur when the system is in use or continuously due to a connection or pipe leak.

Some users will have additional information in this billing regarding observations of continuous usage. In many cases the usage is from irrigation systems, but it can also be from sources inside of the home. Continual usage inside of the home can be from toilets, ice makers, and other sources connected to a drain. Reported to some users is usage that appears to be unintentionally high.

The District monitors unusually high usage on a regular basis. With most users we do not have a contact means other than mail. In the case of unusual usage we would like to contact you by email or phone. You can update the records of the District by including an email or phone number on your payment or by email at admin@eastdillon.org.

VOLUNTARY WATER RESTRICTIONS

The voluntary water restrictions for the East Dillon Water District began May 1st. The restrictions are:

- ❑ Outside usage is not allowed on Mondays and Thursdays.
- ❑ Outside usage is not allowed between the hours of 10 AM and 6 PM.
- ❑ Hand watering, using either a watering can or a hose with a shut off nozzle is ALLOWED at anytime (no restrictions as to days or time).
- ❑ Outside usage using drip irrigation systems is not restricted.

The voluntary restrictions are for outside usage and are in effect until October 1st. The District monitors water levels in our aquifer and customer usage patterns. Should weather patterns, usage levels or water source problems warrant, the District can impose mandatory water restrictions.

Water “holidays” suggested on Mondays and Thursdays have proven very effective in providing our aquifer a rest period to recharge. Due to wind and heat of the day evaporation, outside water applied in the middle of the day is the most wasteful use of water we observe. Please irrigate only before 10 AM or after 6 PM. There are no restrictions on hand watering to allow residents the ability to wash cars when convenient or maintain new plantings as needed. Properly maintained drip irrigation systems are also not restricted as they are a very efficient way of irrigating landscaping suitable in our high mountain environment.

Thank you to residents who voted in the May 4, 2010 election. The current Board of Directors and terms are:

Don Clark	President	23 Idlewild Dr	2012
Peter Rex	Vice-President	24 Coachman Ct	2014
Derek Woodman	Vice-President	282 Meadow Dr	2012
Jan Geiss	Treasurer	293 Soda Creek Ct	2014
Fran O'Malley	Secretary	650 Vail Circle	2012

The administration office of the District is located at:
 Dillon Tech Center
 114 Village Place, Suite 304
 PO Box 3428
 Dillon, CO 80435

The next Board of Directors meeting is Monday September 7th in the East Dillon pump station on Grey Fox Lane at 12:30 PM. For additional information regarding the meeting you can call (970) 668-5655 Ext 2 or email admin@eastdillon.com.
