An average user in East Dillon will have a 2.7% rate increase of \$2.15 per quarter. The rates are based on covering operating costs and to allow sufficient reserves for major infrastructure repairs and replacement.

Over 50,000 gallons	\$10.60 (from \$10.30)

The base rate in Summerwood above the booster pump station is proposed to be \$68.

**CREDIT CARDS** Credit cards are a convenience and financial tool for many water users. However, they have a processing cost that is not built into the water rates. The East Dillon Water District has joined the State of Colorado processing system that allows users to use a credit card to pay the water bill subject to a nominal transaction fee added on by the State. The same system also allows payment by an electronic check for a \$1 transaction cost. Either option can be used through a link on [www.eastdillon.com](http://www.eastdillon.com). Select Pay Your Bill from the menu options.
