- **Electronic check** payments. You can initiate a direct payment from your checking account using the State of Colorado payment system. Access the online payment system through www.eastdillon.com. A choice between a credit card payment and a discounted payment from your bank account will be provided. The State fee is \$1. You will need your account number, account name, property address and billing amount to process the electronic check payment.
- Payments can be made during regular business hours at the Administration office located at 114 Village Pl, Dillon Tech Center, Suite 304, Dillon, Colorado. **Cash** is accepted, but we are unable to make change.
- Payment initiated electronically with **your banking** online system. Payments you originate from your bank come to us by check and they are posted to your account as received through the US Mail.

2014 WATER RATES

The East Dillon Water District bills quarterly and in arrears. This billing is for the 4th quarter of 2013.

The 2014 base rate will increase from \$37 to \$38 per quarter effective with the next billing. The rate schedule by water usage level will increase per the chart below. An average user in East Dillon will have a 2.7% rate increase of \$2.15 per quarter. The rates are based on covering operating costs and to allow sufficient reserves for major infrastructure repairs and replacement.

2014 Quarterly Water Rates

Base rate \$ 38

Usage (per 1,000 gallons)

0-23,000 gallons	\$ 1.90
23,001-50,000 gallons	\$ 5.30
Over 50,000 gallons	\$10.60

The base rate in Summerwood above the booster pump station is \$68.

Tap Fee (new construction) \$ 9,000 per unit.

The base rate does not include any water usage. The District utilizes a base rate structure as it is in an area with numerous vacation and second homes. The District incurs the same costs to insure water service is available to all properties, regardless if occupied full-time or on a limited basis during the year. These costs include the maintenance of water lines, pump capacity, treatment facilities and operations staff. Income from water usage charges also contributes to fixed costs and additional costs of delivering water.

The escalating rate scale of the District is intended to promote water conservation and sensible use of a limited resource.
